EDUCATION

Vadodara Institute of Engineering   **2020 - 2024**
B.Tech in Computer Science & Engineering - 7.8 CGPA

Kendriya Vidyalaya ONGC Ankleshwar   **2020**
CBSE Class XII – 7.3 CGPA

Kendriya Vidyalaya ONGC Ankleshwar   **2018**
CBSE Class X – 7.6 CGPA

EXPERIENCE

Frontend Web Developer Intern | *Ecrox Technologies Corp - Vadodara*   **Jan, 2024 - April, 2024**
- Developed visually appealing and user-friendly web interfaces in collaboration with design and development teams.
- Implemented responsive designs and ensured cross-browser compatibility using HTML, CSS, and JavaScript.
- Utilized Bootstrap to streamline development processes and enhance functionality, ensuring the efficient creation of responsive and feature-rich web applications.

Python Intern | *Stypix Company - Remote*   **July, 2023 - August, 2023**
- During my StyPix Company internship, I honed Python web development skills using Django. I played a key role in project development, crafting efficient web apps.

PROJECTS

My Portfolio website - https://portfolio-priyanshu-shrivastavs-projects.vercel.app/
- Designed and developed a personal portfolio showcasing web development expertise with a clean, responsive design. Built using React.js and styled with TailwindCSS, the site highlights projects with smooth navigation, interactive elements, and a user-centric approach, reflecting proficiency in modern front-end development technologies.

Red Store | eCommerce website - link
- Built a modern e-commerce platform with a focus on visually appealing product displays, featuring seamless navigation and an intuitive interface. The site includes interactive product cards and a fully responsive design to ensure a consistent user experience across all devices.

BiteBuddy - link
- Developed an exact Swiggy clone using ReactJS and TailwindCSS, replicating both design and functionality. Integrated Swiggy's live API to fetch and display real-time restaurant and menu data for a seamless user experience.

SKILLS

Languages: Python, JavaScript, SQL
Technologies/Frameworks: HTML5, CSS3, Bootstrap, React.js, Django, REST, tailwindcss, MySQL, Postman.
version control systems: Git, GitHub, SVN, Mercurial
Developer Tools: VS Code , Pycharm , SSMS

CERTIFICATES

- Frontend Development - Ecrox Technologies Corp - Vadodara
- ReactJs Developer - AJ Group of Company
- Python with Django - Stypix Company
- JavaScript (Intermediate) - HackerRank

LEADERSHIP & ACHIEVEMENTS

- Achieved "Employee of the Month" for excellence in front-end development and teamwork.
- Achieved 1st position in the District Football Tournament for two consecutive years, serving as the team captain.
- Sports Volunteer - Coordinated football and cricket events at Vadodara Institute of Engineering, ensuring smooth execution and fostering a lively sports community.
